

DATA SHEET

RIGIPS JOINT TAPE

Ideal tape for joining plasterboard walls and repairing cracks and holes in the wall or ceiling.

Material:

- fiber glass
- adhesive

Characteristics:

- the special structure of the surface of the strip ensures superior adhesion to Rigips materials, together with which it ensures a very strong reinforcement of the joint
- resistant to breaking by stretching: $\geq 40 \text{ kN} / \text{mm}^2$
- increased resistance to moisture
- joints without cracks
- easy installation

Sizes:

- 45 mm x 45 m
- 50 mm x 90 m

Storage:

It is recommended to store in cool, dry places, protected from direct sunlight.
